3 Strategic use of social media: how to create a plan that works

2 December 15:00-16:30 UTC +2

People use social media. Therefore companies should use it too! The challenge is knowing where your customers hang out online, and how to reach them. This training gives you easy and concrete tips on how to create an effective social media strategy for your business. Using a circle strategy model, you will have the opportunity to create a social media plan that really works for your company and engages your customers.

You will receive a pre-assignment for each webinar via email once you have registered. The participation link will be sent to registered participants two days before the webinar.

This free webinar series comes to you courtesy of the W-Power project and will be presented by Viestintä-Piritta Ltd. Your trainer for each event will be Piritta Seppälä, a communication specialist from Hämeenlinna, Finland. Piritta has been running Piritta Communications for over 10 years. As a trainer she is highly regarded for her ability to communicate effectively with her customers and for giving tips that really work. As a woman entrepreneur she also knows the challenges of online marketing, but as a specialist she knows how to do it right!
